The Central Counting Station will convene based on the size and type of election as determined by the Central Counting Station Manager and the Presiding Judges.

The Central Counting Station will begin the process to count early voting ballots on Saturday, February 26, 2022, at 9:00 am. In accordance with Section 127.093 of the Texas Election Code, the second test of tabulating equipment will be conducted prior to beginning the process to count early voting ballots on Saturday, February 26, 2022.

The Central Counting Station will begin the process to count Election Day ballots on Tuesday, March 1, 2022, starting at 7:00 pm or when the Election Judge arrives with the results stick.

**E. ADMINISTRATION OF OATHS:**

Section 127.0015 of the Texas Election Code prescribes a required oath for all CCS personnel.

This oath will be administered verbally to all members of the early voting ballot board and all personnel at the central counting station prior to the performance of any duties by the board or the Central Counting Station.

For use in the March 1, 2022,

"I swear (or affirm) that I will objectively work to be sure every eligible voter's vote is accepted and counted, and that only the ballots of those voters who violated the Texas Election Code will be rejected. I will make every effort to correctly reflect the voter's intent when it can be clearly determined. I will not work alone when ballots are present and will work only in the presence of a member of a political party different from my own. I will faithfully perform my duty as an officer of the election and guard the purity of the election."

**F. INTAKE OF BALLOTS, ELECTRONIC MEDIA AND SUPPLIES:**

Section 129.051 & 129.052 of the Texas Election Code require the general custodian of election records to develop certain procedures related to inventory control and chain of custody of voting system equipment and electronic media associated with this equipment, providing for verification of equipment identifiers, verification of seals, and verification of chain of custody.

1. Election Judge, or their designee, brings paper ballot cards (in locked and sealed blue ballot bin) and results sticks (in sealed green election results bag) to the Travis County Elections Division intake located in the Multipurpose Room at 5501 Airport Blvd., Austin, Texas 78751.
2. Intake personnel will verify location tags and verify the seals on the green results bags and blue ballot bins are the same as the seal numbers on the seal log.
3. Intake personnel will deliver the ballot bin to a secure area in the warehouse, and deliver the green election results bag with the results stick to the Multipurpose Room where Central Counting Station Clerks will verify the seal numbers with the Ballot and Seal Certificate under the supervision of a clerk assigned by the Presiding Judges. A scan will be conducted on the outside label of the results stick for location tracking purposes in the Poll Asset Management System (PAMS). This is done to track the physical location of the results stick and to keep track of how many sticks have been received and processed and how many are still outstanding. A pie chart will be projected on the wall to show these statistics.

**G. DUPLICATION OF BALLOTS:**

Certain ballots that are counted with automatic tabulating equipment may have to be duplicated if the ballot is damaged or cannot be read with the scanning equipment.

1. The Central Count Station Manager will have any ballots that are damaged or otherwise unreadable by the scanner reduplicated in accordance with Section 127.126 of the Texas Election Code.

## **H. RESOLVING VOTER INTENT:**

At the direction of the CCS Manager, CCS clerks will resolve any voter intent questions on the ballots as they are duplicated or manually counted, as applicable. (Section 127.005 & 127.125)

1. The Presiding Judges and other members will make a determination of voter intent prior to duplication of a ballot.
2. The duplicate ballot will then be created under the supervision of the Presiding Judges in the manner in which the voter's intent was determined.

#### **J. RECONCILIATION:**

The process for comparing the number of voters listed as having voted and the number of ballots cast is done in three ways:

1. Early Voting in Person – Compare the number of early voting check-ins from Precinct Central (electronic poll book) to the number of ballots cast.
2. Early Voting by Mail – Compare the number of ballots entered on the “Ballot Transmittal Form” from the early voting ballot board to the number of ballots counted. (Section 87.021, 87.1221)
3. Election Day – Compare the number of Election Day check-ins from Precinct Central (EPB) to the number of ballots cast. (Section 127.007(b))

Additionally, in accordance with Texas Election Code Section 127.131(f), the Presiding Judges of the Central Counting Station shall provide and attest to a written reconciliation of votes and voters at the close of tabulation for election day and again after the Central Counting Station meets for the last time to process late-arriving ballots by mail and provisional ballots using a form created and rules promulgated by the secretary of state to facilitate compliance with this subsection. Once completed, the form shall be posted on a website maintained by the county along with election returns and results.

#### **K. PRINTING OF PRECINCT RETURNS AND ELECTION TOTALS:**

Under Section 127.127, the Tabulation Supervisor and the assistants to the Tabulation Supervisor are the only ones authorized to operate the automatic tabulating equipment or handle ballots that are automatically counted. After the counting of ballots (or accumulation of vote totals) has occurred, under the direction of the Presiding Judges of

the CCS the precinct election returns are prepared. The Presiding Judges are required to sign a copy of the precinct returns to certify their accuracy. (Section 65.014, 127.131)

The printed “precinct by precinct” report will be adjusted to include any hand-counted ballots (if necessary) and constitutes our certified precinct returns. (Section 127.131(e))

The unofficial election results shall be released as soon as available after the polls close. Alternatively, the Presiding Judges of the CCS, in cooperation with the Elections Division Director may withhold the release of unofficial results until the last voter has voted. (Section 66.056, 127.1311)

Unofficial election results will be released via the Travis County Clerk Elections Division webpage, beginning no earlier than 7:00 pm on Election Day. Election Day results will be released incrementally as processed through acceptance and tabulation until all results are in.

#### **L. REPORTING RESULTS TO THE SECRETARY OF STATE:**

For certain elections, including primary elections, the general election for state and county officers, and constitutional amendment elections, the SOS is required to tabulate the unofficial results statewide. (Section 68.001)

#### **M. POLL WATCHERS:**

Poll watchers are entitled to be present during the time the CCS has convened for the “purpose of processing or preparing to process election results and until the election officers complete their duties at the station.” (Section 33.055)

The poll watcher must deliver both the certificate of appointment and the certificate of completion of the Texas SOS Poll Watcher Training to the Presiding Judges of the CCS and the watcher must countersign their certificate in the presence of the Presiding Judges. (Section 33.051) A watcher may not be accepted for service if the watcher has possession of a device capable of recording images or sound unless the watcher agrees to disable or deactivate the device. (Section 33.051(c)) A watcher serving at Central Counting Station may be present at any time the station is open for the purpose of processing or preparing to process election results and until the election officers complete their duties at the station. The watcher may serve during the hours the watcher chooses, except as provided by Subsection (b) a watcher may not leave during voting hours on Election Day without the Presiding Judge’s permission if the counting of ballots at the Central Counting Station has begun.

Poll watcher(s) are entitled to sit or stand near enough to see and hear the activities (33.056). To ensure that all Poll Watchers can observe the activities in the tabulation

room, the Presiding Judges will implement a system whereby Watchers will rotate into the tabulation room at predetermined intervals due to limited space in the room. Watchers will be selected sequentially from a roster that the Watchers will sign upon their arrival at the Central Counting Station. No more than two watchers will be permitted in the tabulation room at any given time, and party parity will be followed.

All activities of poll watcher(s) shall be in compliance with the current Poll Watchers Guide issued by the Secretary of State.

A poll watcher may request a printed copy of an audit log produced by a central accumulator:

- (1) before any votes are tabulated;
- (2) after early voting results are tabulated; and
- (3) immediately following the completion of the vote tabulation.

**N. DELIVERY OF MATERIALS TO THE GENERAL CUSTODIAN OF ELECTION RECORDS:**

After the completion of the counting of ballots both on Election Day and after Election Day, if necessary, voted ballot cards, electronic media, election records, and election equipment will be retained by this office, who is the general custodian of election records, through the appropriate retention period.
